Nemo

CORSETS AT NEW PRICES

On and After Saturday, July 1st, 1916

The retail price of certain Nemo Corsets heretofore sold at \$3.00
WILL BE ADVANCED TO \$3.50

This Includes the Following Numbers:

SELF-REDUCING—Nos. 310, 315, 316, 318, 319, 321, 322, 324, 325, 344 and 345

MATERNITY—No. 309 KOPSERVICE—Nos. 305, 307

This slight advance, which has been compelled by the greatly increased cost of all kinds of corset-materials, represents only a small part of the higher cost of manufacturing. We are forced to raise prices or sacrifice quality, and

NEMO QUALITY WILL NEVER BE LOWERED

The same cause may compel an advance in the retail prices of other Nemo models in the near future.

ASK VOCATIONAL ADVICE.

Business Men to Help Training in Schools.

In an effort to make the city's schools better serve the vocational needs of the pupils, Superintendent E. L. Thurston will mail a circular letter to all business establishments of Washington, which will contain blanks to be filled in with information concerning the need of business men in reference to employment.

It is hoped that in this way a clearer idea can be obtained as to which branches of vocational training proves of the most value. A complete record has been made of the work of each pupil during the

school term. These cards are on file in the superintendent's office and show the nature of the work, the hours each day that the pupil was employed, and the salary received. Another feature of this system shows the present whereabouts of the pupils, their salary and what changes they have made since leaving school.

Would Pray for Peace.

A suggestion that President Wilson and the governors of the various States be requested to issue a proclamation setting aside Sunday, July 21, of this year as a day of prayer for peace has been made by the Journal and Democrat of Massachusetts.

APPROPRIATION BILL HEARINGS CONCLUDED

Unlikely that Process of Making Up District Measure Will Permit Its Passage Before Next Saturday.

The Senate appropriations subcommittee in charge of the District appropriation bill late yesterday afternoon concluded its hearings regarding the measure. The process of making up the bill will be commenced tomorrow morning. It is impossible to forecast how long the work will require. It is unlikely that the bill will pass before next Saturday.

The Klingle Ford Valley project was urged by representatives of Thomas J. Fisher & Co., realty brokers, and others. Col. W. W. Hart, superintendent of public buildings and grounds, and secretary of the fine arts commission, was among those who vigorously endorsed the undertaking.

An increase in salaries for municipal court judges and a larger appropriation for the National Training School for Girls were urged by Chapin Brown.

WITH SOCKS AS NOOSE, MAN TRIES TO HANG

Hanging to the top of his cell door by a pair of socks which he had tied to a noose and knotted to the cell grating, Joseph W. Jerrell, 24 years old, who had given his address as 615 A street southeast, was found, still conscious, by Policeman J. A. Foley last night at the Second police precinct station. Jerrell was sent to the Washington Asylum Hospital, in the prisoner had been arrested by Policeman Gallimore, of the Second precinct, last night in Seventh street northwest. He was charged with carrying concealed weapons. A half hour after his arrest he was found hanging by his socks. Baltimore said last night that the man threatened suicide when he arrested him.

Rotary Club Members Distribute Blanks as Step Toward Relief Plan.

The first practical step toward furnishing relief to the families of the members of the District National Guard was taken yesterday, when John Dolph, chairman of the relief committee of the Rotary Club, sent to Camp Radio hundreds of blanks to be filled out by the guardsmen, so that the relief workers of the city will have a definite basis to work on in aiding each family.

The blanks were given to Brig. Gen. William E. Harvey, commander of the regiment, who said he would endeavor to have the guardsmen fill them out within the next few days, when they will be returned to Mr. Dolph.

With this complete record, the Rotary Club committee will jointly with the committee representing the nine organizations that met at the home of Mrs. Archibald Hopkins, 1825 Massachusetts avenue northwest, Friday afternoon.

Mr. Dolph said last night that with the statistics on the blanks, the committee will know just what will be needed to make each family comfortable, and will regulate their campaign accordingly.

The blanks sent to Camp Radio to be filled out call for name, address, married or single, size of family, number of dependents, whether employer is going to continue salary in whole or in part, whether job is being held until return, and other miscellaneous information that would be of value to the committee in its work.

The committee will not launch a formal campaign for funds until it is known just how big a job they have before them, which will be made available through the blanks.

The action of the Senate yesterday in killing the Hay resolution giving \$50 a month to the families of the Guardsmen, caused the movement for the relief of these families to go forward with renewed vigor last night.

S. Kann, Sons & Co. has notified its twelve employees who are in camp with the National Guard that they will be continued on the payroll of the firm, no matter how long their term of enlistment may last. The news was carried to them at Camp Radio by George S. De Neale, superintendent of the store.

The Bethlehem Steel Company, P. Lorillard Company, importers of cigars and cigarettes; the Firestone Tire and Rubber Company, and Armour & Co., have agreed to agree to non-open the positions of their employees who belong to the militia.

COMMERCE CLUBMEN HOLD FIELD EVENTS

Bureau of Standards Beats Hosts, 3-2. Petworth Clashes with Bureau of Standard in Tennis Match.

Members of the Commerce Club held a field day and picnic at the Bureau of Standards grounds, yesterday. The celebration started at 2:30 o'clock and lasted until late in the evening.

Teams of the Commerce Club and the Bureau of Standards played a six-inning ball game, the former coming out at the long end of a 3 to 2 score. The Petworth Club defeated the Bureau of Standards in a closely contested tennis match.

A basketball contest, ended with Schmidt, Lynch and Miller, of Commerce, in the first three places. Van Dusen and Beck, both of the Bureau, landed first places in the high jump, clearing the bar by one foot one inch. Miller and Van Dusen led the broad jumpers, and Fitzgerald, Greck and James threw the shot farther than the others.

The master of ceremonies was W. E. Braithwaite, and M. S. Van Dusen was in charge of field sports.

Miss Clara Porton has been engaged in the office of John L. Waters and Company, patent attorneys.

Miss Esther Apperson is now assisting E. F. Armstrong, principal of the commercial department.

MEXICANS ARMING FAST.

American in Mexico City Wires of Conditions There.

New York, June 24.—George Weeks, an American in Mexico City, wired the Mexican consul in New York yesterday that since the critical relations between this country and Mexico had arisen, it was estimated that 1,000,000 Mexicans were expected to take up arms in defense of their country.

Americans are leaving in large numbers, he said, and it is estimated there are only about 200 now left in Mexico City. A special train bearing 150 Americans left today for Vera Cruz, to be transported to the United States.

NAVY ARRANGES TO BUY CURTISS AERO TRACTOR

Vice President Marshall made an official inspection Friday afternoon of the Curtiss military tractor which the National Aerial Coast Patrol Commission has had on exhibition on the lawn of the Senate office building, in behalf of the Aero Club of America and the New York World.

Immediately afterward it was ascertained that the Navy Department had made preliminary arrangements to buy the machine, and as a consequence, it will be dismantled this morning, and the Senatorial visits will cease accordingly, even though not more than half the members of the upper body have found time to visit the giant flyer. The term "giant flyer" is used advisedly, since the country as a whole has not as yet begun to realize what incredible strides in aeronautics have been made by France, Germany, and England.

Vice President Marshall was accompanied by Jerry South, chief clerk of the House of Representatives.

JAIL INMATE GETS \$25,000.

But Forger Still Faces Five-year Term in New Jersey.

Trenton, N. J., June 24.—It's an even break whether inmate 103 at the Mercer County Workhouse will leave that institution clad in modestly tailored clothes and driving his own car or as a passenger in the Black Maria bound for a forger's cell in the State penitentiary.

Until noon Thursday there was no question about his ultimate destination. The forger's cell was fairly yawning for him. But something happened to change things.

Inmate 103, second-timer and forger, Ernest Rogers, here and beneficiary of a \$25,000 legacy for saving the life of Mrs. Martha Dobbs in Pittsburgh several years ago, are one and the same person. Because of this discovery, made through an advertisement in an old newspaper that reached here, Rogers will be met on completing his one-year term by lawyers, who will give him \$25,000, and guards, who will take him in custody on a charge of breaking parole, on which he still owes the State five years' time.

There is an average of about 300 births and seventy deaths a day in London.

Merchants to Show Highway Film in Opening at Poli's July 10

"The National Capital Prepared." is the title of the big film of the joint committee on the Lincoln Highway. Federated of the Board of Trade, Chamber of Commerce and Retail Merchants' Association, which will have its premier at Poli's Theater, beginning Monday evening, July 10.

Arrangements were made last yesterday by a subcommittee consisting of M. A. Leese and Oliver Metzgerott. Manager Fred G. Berger of Poli's Theater, advised the committee that the theater's plans for improvement would be held up until the film is shown.

President Woodrow Wilson is expected to attend the exhibition. The President included in the route of the Lincoln Highway proper. Furthermore the President established another precedent in posing before the committee's camera man in the White House grounds.

The production of the film, which is 7,000 feet long, has involved an expenditure of about \$3,500, and in order to liquidate this expense, the film will be shown here for pay. The film will then be sent throughout the United States to trade and other large organizations. There will be no charge to such organizations.

The attractions of Washington are shown. It will require two hours or more for the showing.

The film is the result of months of labor on the part of the committee. "If there is anything in Washington that has been overlooked, the committee is willing to make amends," said Col. Harper, "but I feel sure that apologies will not be necessary. The film will, we feel sure, be a permanent means of attracting thousands to Washington, for we intend to send it to every part of the country."

The joint committee has arranged with Manager Berger for the use of Poli's Theater for Monday, Tuesday and Wednesday, July 10, 11 and 12. Matinee and evening performances will be given July 11 and 12.

The advance sale of seats will open at Poli's Theater Thursday morning.

HOME CLUB EDITOR PROPOSES UNIQUE DEPARTMENTAL SCHEME.

W. I. Swanton, of the United States Reclamation Service, in the latest issue of the Interior Department Home Club Bulletin, made the following statement: "The railroads entering Washington maintain a bureau of information for mutual advantages of themselves and their patrons. Why should not the government do likewise?"

The proposed bureau would "keep on file the blue books, registers, directories, latest reports and bulletins of all departments, and would also collect and compile certain kinds of data, and act as a unifying force in the varied work of the government."
